Q Station (QLight)

Quick Installation Guide

For iOS

(Q Bulb)

(Support iOS Version: 6.1 and above)

1. Installation

Figure 1: Power up Q Station

Installation Steps:

- 1) Plug in Power Adapter to Q Station.
- 2) Connect the Q Station to the LAN of your Home Router with LAN cable (optional).
(If you want to connect internet wirelessly, please refer to Q Station User Guide.)
- 3) Connect the Audio Cable from your Q Station to the AUX of your stereo or speaker.
- 4) Make sure the indicator light of Q Station is blinking with red (left) and blue (right).
- 5) Screw-in the Q Bulbs.

2. Connect your smart device to Wi-Fi

By changing your Wi-Fi connection to "bellnetXXXXXX", you will connect to the Q Station.

Notice:

- By default, Q Station SSID is "bellnetXXXXXX". No Encryption. (XXXXXX is the last 6 digit of your MAC)
- Once it is successfully connected to the Q Station, the right indicator light should be a steady blue color. Otherwise it will be blinking.

Figure 2: Connect Q Station SSID

3. Play music & Light show (use your smart phone)

- 1) Click the built-in APP “Music”  to play music.
- 2) Select a song, then play the song.
- 3) Swipe the screen to select speaker in AirPlay, choose “bellmusicXXXXXX” as your speaker. (Figure 4)

Notice:

- By default, Q Station Speaker Name is “bellmusicXXXXXX”.(XXXXXX is the last 6 digit of your MAC)
- AirPlay protocol allows you to stream music to the stereo or speaker which is connected to the Q Station. And the Q Bulbs will blink synchronously with your music.

Figure 3: Use “Music” to play music

Figure 4: In AirPlay, choose speaker name “bellmusicXXXXXX”

4. Lighting Control

Install BellQ

- 1) Search the APP “**QLight**” in APPs Store. Download and install it.
- 2) Run it. You’ll see light control page. (Figure 5, Figure 6)

Figure 5: Color Mode

Figure 6: White Mode

Click “ALL”: all your light control operation will control all three Q Bulbs.

Light Control:

- 1) Click ON or OFF to turn on or turn off the Q Bulbs.
- 2) Slide the little circle  to adjust the color of light.
- 3) Move the intensity bar  to adjust the brightness.
- 4) Click “Color” / “White” to control the light mode.

Click “LIGHT A”/ “LIGHT B”/ “LIGHT C”: You can control the light separately.

Music Sync Start: The lights in the Group Music will blink with music.

Music Sync Stop: The lights in the Group Music won’t blink with music.

5. Network Configuration.
